Welcome

Our sixth edition of the Bournemouth, Poole, Christchurch and East Dorset Business Directory provides a comprehensive list of businesses within what is the second largest conurbation in the South West.

Early in July, Dorset’s Growth Deal was announced. The Dorset Growth Deal aims to unlock major growth in and around two of Dorset’s most significant economic assets – Bournemouth Airport and the Port of Poole, as well as supporting Dorset’s vibrant and diverse business base.

The Growth Deal, subject to a satisfactory conclusion of the funding agreement, will bring together local, national and private funding as well as new freedoms and flexibilities to focus on four key priority areas as identified in the Local Enterprise Partnership’s Strategic Economic Plan:

- Enabling growth in key housing and employment sites
- Creating the conditions for growth
- Supporting Dorset businesses
- Growing the skills base

Dorset has secured £66.4m from the Government’s Local Growth Fund to support economic growth in the area – with £11.7m of new funding confirmed for 2015/16 and £42.4m for 2016/17 to 2021. This includes £12.2m of funding which the Government has previously committed as part of the Local Transport Body funding to the area.

Funding was also approved for:

- Jurassica – Preparatory work for a flagship new Jurassic Coast visitor centre on the Isle of Portland
- ODIAC (Orthopaedic Development and Innovation Accelerator Cluster) – Funding for a research centre of excellence at Bournemouth University to help grow the emerging Orthopaedic cluster in Dorset

This substantial investment from the Government will bring forward at least £530m of additional investment from local partners and the private sector. Combined together, this will create a total new investment package of £596.4m for the Dorset LEP.

By 2021, this Deal will create at least 25,000 jobs and allow 3,000 homes to be built.

In response to demand, the Directory has been published in a range of formats including interactive CD and is also available online at www.burrows.co.uk/bournemouth. The Directory has been sent to all the companies listed, advertisers, appropriate business support agencies and other relevant organisations and is also distributed at business events locally and overseas.

We would like to thank all the businesses and organisations who have contributed to the Directory and hope that you will continue to benefit from the range of information that it provides. We welcome any feedback and look forward to receiving your views at e-mail: g.brennan-barrass@poole.gov.uk

Aquacare
Water is our business

Being responsible for a building – and the safety and welfare of the people in it – can be a daunting prospect. Legionella can thrive in hot water systems, showers, spa baths, whirlpools and jacuzzis, in air conditioning units, sprinklers and hose reels. You need to be certain your building’s heating, plumbing and water quality is in the best professional hands.
You need Aquacare.

Don’t trust your water system to luck
Trust Aquacare to take care of it all

Aquacare

Aquacare
Water is our business

Through our portfolio of on-site services, we already help schools and universities, hospitals and medical facilities, councils, care homes and housing associations maintain and enhance their water systems in full compliance with HSC ACoP L8 and HTM 04-01 Part B.

- FREE, no obligation survey of your business premises
- Water system risk assessments and reports
- Priority action plan for remedial work and control measures
- Cleaning and disinfection
- AquaVision and ZetaSafe web-based asset management and monitoring
- Comprehensive staff training

Our customers enjoy peace of mind knowing their reputation – and the health, safety and welfare of their clients and customers – is in safe, professional hands. All our Legionella risk assessors are fully trained with City & Guilds qualifications and are BS 8580 aware.

Economic Development Teams across the Conurbation

Whatever your requirements, whether it is an improved supply chain, specific financial support, identification of property or advice on skills and recruitment, Economic Development Officers across the conurbation can act as your access point.

International Businesses

Investing in the UK from overseas or exporting abroad requires an additional level of support and advice. We can offer a tailored service to meet your needs as outlined below.

Networks

Dorset is both vibrant and inclusive. In order to develop an effective network of local contacts to create new opportunities for your business, we can introduce you to:
- Sector forums and networks
- Professional service organisations
- Potential business partners
- Business Improvement District
- Chambers
- Dorset Growth Hub - Access to finance

Knowledge

The key to gaining a competitive business advantage often lies in gaining an effective understanding of a particular market and the business opportunities available to it. We can assist with a range of research services.
- Demographics and local statistics
- Research and Development
- Market Validation

Support

Moving to a new area can be both an exciting and daunting experience. Dorset has so much to offer that exploring all the options available be a time-consuming exercise. We can provide:
- Familiarisation visits
- Location information
- Employment and networking
- Funding opportunities

Location

Dorset boasts excellent connectivity with a vibrant property market that offers a broad range of commercial property from high quality office space, waterside and airport based industrial units through to retail and leisure opportunities. We can provide:
- A commercial property database
- Location advice
- Agent liaison and property viewings

Skills

Recruiting the right people is a vital component in any successful relocation, whatever the nature of your business. Employers have access to a skilled and well qualified workforce with labour rates below the national average. We can help with:
- Labour market information
- Recruitment partners
- Training and ongoing development
- Dorset Skills Hub

The Economic Development teams can offer free, confidential informative advice to companies looking to relocate.
As we come to deliver projects, operational task and finish groups will support projects to realise outputs and to track outcomes. We see the LEP working closely with partners, steering the course between delivery and strategy and reporting across functions, localities, industry specialisms and communities.

The LEP is an established working group providing the integrated vision needed to embed local economic growth in the complex of priorities, opportunities and projects set down. The LEP is a vector for locally ambitious planning. But it also serves as an important set of structures for identifying strategic and operational risks across functions (transport, health and housing) and across localities, via Local Authorities and LEP members from across Dorset. Our rich and productive relationships with small, medium and large businesses, in all our key sectors, stand as a final and primary resource in mobilising growth. This collocation of expertise makes for a highly investable proposition in Dorset, a place that is attuned to local growth and to the national agenda for industrial and economic development.

Please find out further information at www.dorsetlep.co.uk

The Dorset LEP is committed to local growth. Its arrangements for oversight, management and delivery connect Dorset’s top-level strategic themes – Talented, Connected, Competitive and Responsive – through our partnerships and organisational structures and into delivery. This is an important component in realising transformative growth.

Private Sector-led Boards are in place to navigate core issues, notably Creative Industries, Skills and Transport. We have identified champions to maintain key agendas – Health and Social Care for instance, and in relation to rural matters. The commercial know-how and networks across partners and partnerships provides impetus and insight.
Delivery of Established Projects since Dorset LEP launch in May 2012

**Growth Hub:** £1.2 million secured to establish business support service. This went live in April 2014 and provides essential support for business growth across a wide range of relevant topics to suit individual business needs, priority sectors, and access to finance.

**Planning Charter/Local Plans:** a planning charter [here](http://www.dorsetlep.co.uk/assets/About-Us/Planning-Charter/Dorset-LEP-Planning-Charter-Board-Approved.pdf) has been jointly agreed between the Dorset LEP and all Dorset local planning authorities. A positive dialogue has been established and will continue to inform planning policy development and development management to facilitate new job growth.

**Broadband:** the Dorset LEP has actively supported the development and roll-out of the £32 million delivery programme across Dorset, ensuring that economic growth issues are addressed. This is supplemented by the delivery of training to assist businesses to derive maximum benefit from enhanced broadband.

Promoting Dorset as a business location for inward investment, working closely with UKTI to capitalise and build upon the opportunities arising from hosting the sailing events of the 2012 Olympic and Paralympic Games. Dorset was recently ranked in the top ten in two categories of the ’fDi’ magazine’s (a publication from the Financial Times) European Cities and Regions of the Future 2014/15 Awards; namely, best foreign direct investment strategy from a UK LEP, and small European region.

**Transport:** Establishment of a Local Transport Body for Dorset, and securing agreement on the prioritisation of transport schemes. Reviewing and revising the Dorset Skills Plan, through the Employment and Skills Board, to feed into the strategic economic plan.

**Apprenticeships:** £0.23m secured to support apprentices in SMEs.

**Silicon South:** Establishing a Digital Manifesto, securing the support of MPs, businesses, higher and further educational institutions and local authorities to develop a key growth sector for the local economy.

**Tourism:** the Dorset LEP assisted in securing £2 million for the establishment of the National Coastal Tourism Academy in Bournemouth, and is represented on its Board. The LEP Board is also leading the establishment of a Dorset Destination Management Organisation, with human and financial resource input.

The Board is dominated by business representatives, working with colleagues from higher and further education, the community/voluntary sector, and local authorities:-

**LEP Board Members**
- Gordon Page, Chair, former CEO Cobham plc
- Philip Warr, Deputy Chair, P H Warr plc
- Elaine Atkinson, Leader, Borough of Poole
- Alex Picot, Chief Executive, Dorset Community Action
- John Beesley, Leader, Bournemouth Borough Council
- Jim Stewart, Chief Executive, Poole Harbour Commissioners
- Bruce Grant-Brahm, Chairman, Poole Tourism Management Board
- Spencer Flower, Leader, Dorset County Council
- Ray Nottage, Leader, Christchurch Borough Council (District and Borough Council representative)
- Terence ‘Rourke, founder of Terence O’Rourke Ltd
- James Weld, CEO, The Lulworth Estate
- Jim Andrews, Office of the Vice-chancellor, Bournemouth University
- Geoffrey Smith, Bourne Leisure
- Alison Moore, small business owner, sole trader
- Jitinder Takhar, Group Business Development Director, Spectrum Housing Group
The changing face of Poole

The central area of Poole has many distinctive qualities. The Dolphin Centre provides over 190 shops, the Lighthouse is one of the largest arts centres outside London and the environmental quality of the harbour is internationally recognised. In addition, the Quay and maritime environment attracts tourists from all over the world, and the Old Town and parts of the High Street showcase Poole’s strong architectural heritage.

In recent years a number of new developments have taken place including the construction of the Twin Sails Bridge, the development a new Asda, new RNLI facilities and over 1,000 new homes on various sites across the town centre. While these developments have begun to change the face of Poole, the central area offers many opportunities for further growth and regeneration. It is anticipated that proposals along the waterfront and within the town centre north area will:

- Deliver around 2,700 new homes, community facilities and over 2,000 sq metres of new business floor space
- Provide in the region of 35,000 sq metres of additional BI space
- Transform the leisure and cultural offer of the town through the provision of a new cinema along with additional cafés, bars and restaurants
- Significantly enhance the public realm, creating a new public space outside the Lighthouse and opening up more public access around the waterfront
- Improve the way people move around the town by enhancing pedestrian links across the railway line and making significant improvements to the bus station
- Improve access to the port

The Twin Sails Bridge

The Twin Sails Bridge opened in spring 2012 and is a symbol of Poole’s ambition and confidence. The landmark structure provides critical infrastructure to unlock 26 hectares of brownfield land, giving access to one of the largest regeneration sites in the south west. This land will deliver new homes, shops, business and community facilities, which could create in the region of 2,000 homes and 5,000 jobs. The bridge also provides a second harbour crossing for Poole, connecting the community of Hamworthy to Poole, improving transport links and easing traffic congestion in and around the town centre and the port.

Designed and engineered by Gifford, with Wilkinson Eyre Architects and Bennetts, the structure was the first bridge of its type to be built anywhere in the world. It has won numerous awards and has attracted international attention, being visited by engineers from all over the world.
Carter’s Quay

Work has begun on one of Poole’s major regeneration sites. Developer Inland Homes started construction on the 9.8 acre site of the former Pilkington Tiles factory in 2013. The multi-million pound project includes a mix of 268 homes, 12,000 sq metres of commercial space, new road access, including a new link to the port, and new public quayside. The first phase is focused on the delivery of 82 new homes and the first homes went on sale earlier this year.

Former Power Station

Landowners Gallagher Estates and Lands Improvement Holdings are proposing to build up to 1,350 new homes, a supermarket, cafés and restaurants on the former Power Station site in Lower Hamworthy. The site covers 16.2 hectares and is located where the Twin Sails Bridge touches down in Lower Hamworthy. The multi-million pound scheme would also include new public spaces and coastal walkway along Holes Bay. The developer has submitted an outline planning application which aims to bring about a comprehensive mixed-use regeneration package. The application is currently being considered by the Borough of Poole.

Dolphin Centre

The Dolphin Shopping Centre is located in a prominent location in central Poole and contains 199 units offering approximately 40,000 sq metres of retail space, anchored by Marks and Spencer, Primark, Boots, BHS and Beales Department store. The centre has an extensive catchment which is boosted by tourist draw resulting in an annual footfall in excess of 11 million.

Legal & General Property (LGP) acquired the centre from Wereldhave in February 2013. Since then LGP have been working behind the scenes on plans which will see the Dolphin Centre and surrounding area improved during a phased programme of investment over the coming years.

LGP have ambitions to increase dwell time, improve the leisure and catering offer, and enhance the tenant mix within the centre by introducing new traders who are currently not represented in the town. This programme of improvements will also aim to enhance circulation and access into the centre. The first phase of improvements is due to be set out in a planning application during 2014.

University students bring investment to the Lansdowne

The Lansdowne is changing, and arguably has been changing throughout the last decade. What was once a largely run down commercial area is rapidly transforming into the unofficial “University Quarter” as Higher Education students move in alongside well established businesses, with newer businesses undoubtedly setting up or moving in to service the burgeoning academic population on their doorstep.

Much of the new building in the area has been new Halls of Residence to house Bournemouth University students. In 1994 BU acquired Hurn House Halls of Residence for 152 residents and in 1997 Cranborne House was built to house 500 residents. The Higher Education sector soon recognised that the heavy capital cost of large residential buildings would soon impact on core academic resource provision and so in 2005, BU appointed 2 partners, UNITE PLC and Signpost Homes (who subsequently became part of the Spectrum Housing Group before being bought by Campus Living Villages in 2013) to build and operate new Halls, with the University allocating students to live in them.
This lead to the building of three new sites at the Lansdowne, housing over 1,100 students, as well as two others at Winton and Poole town centre. After the end of this partnership agreement, the University agreed to lease a large new Hall at the former B&Q site in Holdenhurst Road, which houses 590 student residents as well as the new Citygate Church facilities.

Dorchester House was the first large scale student accommodation block built by private providers without a prior contractual agreement with the University, and is owned and operated by The Student Housing Company. The University took advantage of this opportunity to lease the building to enable a large scale refurbishment at Cranborne House, now showing its age after 16 years and newer high standard builds springing up around it, and also to close and sell the old Hurn House site for similar reasons. With Cranborne House re-opened after a multi-million pound investment in September 2013, the Lansdowne population now stands at over 2,100 student residents.

Aside from the Halls of Residence, but as a key part of their delivery, other non-residential new buildings were created at Melbury House, Oxford Road, and also the Executive Business Centre in Holdenhurst Road which houses Postgraduate Business Studies students and supports local small businesses, including a cafeteria which is open to the public. These sit alongside established University administration and teaching buildings at Bournemouth House, Studland House and Royal London House in Christchurch Road, and the Student Union social facilities at The Old Fire Station in Holdenhurst Road.

The period from 2014-2015 will continue to see large scale investment in new student buildings in the area, some with BU direct involvement and some without. Two sites are expected to open in September 2014 from private developers including the former Hurn House and its adjacent site (now known as Lulworth House) and at Bracken House a short walk away in Christchurch Road, which combined will house 333 students. The new Madeira Road Hall of Residence being developed for the use of Arts University students will add 374 more beds. Further ahead in September 2015, the BU supported International College site in Holdenhurst Road, working in partnership with Kaplan, will yield another 390 beds as well as a catering facility and teaching block.

Rapidly, the student population will grow to a projected figure of 3,200 at the Lansdowne by 2015, most of whom will be Bournemouth University students. Undoubtedly this will bring even greater spending to local businesses in and around the Lansdowne and attract more businesses wanting to cater for this growing market. Recent examples of this include two established estate agents who have opened offices nearer to the Halls of Residence, a beauty salon, convenience supermarkets (located beneath two of the new Halls) and both fast food and higher quality catering outlets. Aside from the traditional UK undergraduate, many students are, and will increasingly be, from overseas, bringing greater cultural diversity and increasing vibrancy to this fast-evolving area of Bournemouth.

Business Growth

Silicon South

In June 2013, the Dorset LEP and other local figures from the public, private and education sectors signed up to a manifesto to boost economic growth in Dorset’s creative and digital industry. Under the leadership of David Ford (Bright Blue Day), Silicon South was created to lead the delivery of the manifesto’s vision.

In the last six months, around £370,000 of investment (both cash and in-kind) from Bournemouth University, Bright Blue Day, Devonshire Corporate Finance Ltd., and others in the public and private sector has been leveraged in support of Silicon South.

Silicon South has succeeded in bringing together the most influential players and decision makers to our local digital and creative sector and mobilised stakeholders behind a single vision.

Silicon South’s long-term objective, with a number of shorter-term complementary activities, needs to be undertaken now (Phase 1) in order to ensure we are ready for the release of funds from the EU Structural Investment Fund and Local Growth Strategy in the summer of 2014:

- a marketing campaign (including a lobbying campaign to attract a large corporate as well as an assessment of our main competitors);
- a geographical capacity analysis;
- feasibility studies on incubation, a VFX hub, and film production; and
- an investment plan for mid-size business growth

The above activities will be led and delivered by Silicon South. By formalising (and providing sufficient funding support for) Silicon South now, it will provide a credible focal point for mobilising necessary resources and expertise to ensure Dorset is able to capitalise on emerging investment opportunities when they arise (e.g. Google Gaming).

Short-term benefits (12 – 24 months) in economic growth are anticipated (e.g. through the growth plan for medium sized businesses). Critically, the outputs from these activities will also ensure the development of a detailed investment and programme plan for Silicon South’s longer term 2020 vision (Phase 2). This plan will include:

- a prioritised set of key projects leading up to 2020:
- an investment plan for securing private and public finance for these projects (including grant funding applications) and:
- a model of revenue generation to ensure Silicon South can function as a self-sustaining delivery body.

Growing Places Fund

The Government has established the Growing Places Fund (GPF) with three overriding objectives:

- to generate economic activity in the short-term by addressing immediate infrastructure and site constraints and promote the delivery of jobs and housing;
- to allow local enterprise partnerships to prioritise the infrastructure they need, empowering them to deliver their economic strategies; and,
- to establish sustainable revolving funds so that funding can be reinvested to unlock further development, and leverage private investment.

The Growing Places Fund is a loan scheme designed to address financial constraints by enabling targeted investment in pieces of infrastructure which unlock development. The Dorset LEP has secured £9,639,201 from the Government for the Growing Places Fund investment.

Schemes approved for investment by the Dorset LEP Board

**Boscombe Regeneration, Boscombe:** establishment of a Community Land Trust to develop a site providing 11-12 affordable family homes with gardens, a community growing space. GPF contract for £1,500,000.
Accountable body and how to apply

Dorset County Council acts as the accountable body on behalf of the Dorset Local Enterprise Partnership (LEP) for the operation of the GPF in Dorset. There is still some Growing Places Fund money available for investment. For further information, please look at: http://www.dorsetlep.co.uk/competitive-dorset/growing-places-fund/

Hamworthy, Transport Smarter Choices: provision of transport and access links to new housing and employment development. GPF commitment for £400,000.

North Dorset Business Park, Sturminster Newton: provision of infrastructure to 6.6 hectares of publicly owned land and division into serviced plots, to transform the area from derelict land to a thriving business park. GPF contract for £800,000.

Osprey Quay, Portland: investment to unlock the next phase of the Castle Court development which will comprise of; 1,000m² of employment space; 39 residential units; Public realm square (Liberty Square). GPF contract for £500,000.

Field International: Part of a comprehensive refinancing package, safeguarding the existing 85 jobs, this investment will enable the business to realise its expansion plans and create a further 10 to 20 jobs including three apprenticeship positions. GPF contract for £2,315,000.

Dorset Green, Incubation/ Starter Units: Development of 700 sq m (7,500 ft²) of start-up business space on 0.5 ha. of Homes & Community Agency land at the Dorset Green Business Park, Winfrith (former Winfrith Technology site). GPF commitment for £650,000.

Alder Hills – Centre for social Enterprise Excellence: purchase, refurbishment and development of the former Remploy factory site at 14 Alder Hills in Poole by Bournemouth Churches Housing Association (BCHA). Through this project, BCHA will create a Hub for its existing training and social enterprises allowing for their expansion and the space to create new ventures. GPF commitment for £775,000.

Superfast Broadband

Dorset’s conurbation currently benefits from a high coverage of superfast broadband, with 96% of Bournemouth & Poole properties able to access this. However there are still some areas that do not have access to good broadband speeds.

Dorset’s £31.75 million Broadband project ‘Superfast Dorset’, launched on the 10th July 2013, will address poor broadband coverage, which is particularly an issue in the more rural areas of Dorset.

By the end of 2016 over 95% of Dorset properties will have access to superfast broadband, increasing to over 99% superfast broadband coverage in the conurbation.

The project will see 97% of Dorset premises having access to high-speed fibre optic technology, mostly by a technology called fibre-to-the-cabinet (FTTC). This can deliver wholesale downstream speeds of up to 80Mbps, and upstream speeds of up to 20Mbps.

Fibre to the premises technology, delivering ultra-fast wholesale speeds of up to 330Mbps, will be available on demand if local businesses want the ultra-fast speeds it offers.

The new fibre-based network will be open to all internet service providers on an equivalent basis. There are more than 80 service providers currently offering or using fibre services over BT’s network. Households and businesses will therefore benefit from a highly competitive market, bringing greater choice and affordable prices from a wide range of service providers. It will also boost the competitiveness of local businesses, helping them to find new customers and operate more efficiently, whilst opening up a host of new learning and development opportunities for households.

Superfast broadband benefits include users being able to use multiple bandwidth-hungry applications at the same time and sending and receiving large amounts of data much more quickly and efficiently. New fibre services are set to transform the way consumers use the internet, from the simple sharing of pictures and video to enjoying the growing boom in entertainment services available online.

For local businesses, the fibre network will underpin the introduction of many new services and applications. Big business applications driven by new ‘cloud’ services will be within the reach of enterprises of all sizes. Computer back up, storage and processing will be faster, and the use of high-quality videoconferencing will become a viable possibility www.dorsetforyou.com/superfast

80Mbps and 330Mbps are wholesale speeds. Internet Service Providers (ISPs) may use different speeds in their advertising. Individual line speeds will depend on network infrastructure and the service chosen by the ISP. Open reach has started to make FTTP on demand available in its fibre footprint. Open reach will levy an installation charge but it will be up to service providers to decide whether they pass that onto businesses or consumers wishing to take advantage of the product.

Superfast broadband is 24mbps or faster.
Invest In Dorset

Dorset attracts investment from leading global companies looking for the ideal destination for business investment. The Invest in Dorset team are here to assist your business with expert advice tailored to your specific needs. Whether you are thinking about starting a new business, expanding your UK operations, relocating, or seeking a UK base for your operations, we will provide you with a dedicated reception service.

Dorset is home to a wealth of world renowned companies and many world-leaders have chosen to locate their International or UK Headquarters in Dorset, including companies such as Cobham, Meggitt, Organix, Sunseeker International, Lush, Farrow & Ball and Merlin Entertainment.

Over 200 foreign-owned businesses have chosen Dorset to set up part or all of their UK operations, such as JP Morgan, The Bank of New York Mellon, Airbus Defence & Space, Magellan Aerospace, Atlas Elektronik, Siemens, Honeywell, Sigma-Aldrich, Manitou, Caterpillar, Deutsche Bank, Harris Freeman, Wartsila and many others.

The unique benefit that the Inward Investment Team in Dorset can offer businesses and organisations who are looking to relocate to – or expand within – the area is the strength of their own network.

If your company is looking to locate, partner, invest or expand in Dorset we can help you to identify and access new markets, investments, technologies and products. We will provide all the information you need, offering advice on the economy, locations, recruitment and sector specific information. We can also help you understand the training and financial support that will help your company thrive and will continue supporting your business after you have settled in the area.

Commercial Property Database

Our Commercial Property Database, Property Pilot, draws its supply from local and regional commercial estate agents, landowners, business park and industrial estate managers and Local Authority partners. It offers the ability to search for available commercial properties within Dorset. It is a free, confidential and impartial service. Whether you are looking to start-up, expand or relocate within our area, Property Pilot can be an invaluable tool in making that decision.

Should you wish to discuss your requirement in more detail there is a dedicated Property Adviser with a wealth of expertise and connections that can assist with associated issues such as planning consents, accessibility and local market intelligence.

To search for property for sale and ‘to let’ please access the following link http://www.boroughofpoole.com/business/business-support-and-advice/locating-to-poole/commercial-property-search/ or contact our property expert Joanna Rufus on +44 (0)1305 224797.

Our Relocation Support Includes

- Location Advice
- Property Viewing
- Familiarisation Visits

Overseas Inward Investment

For assistance in setting up your business in Dorset from overseas, the Government Department for UK Trade and Investment (UKTI) can help. The Invest in Dorset team works hand in hand with UKTI to encourage overseas businesses to invest in Dorset.

UKTI offers free support and independent advice to foreign companies looking to invest or locate in the UK. Their network of experienced sector and location experts provide market information, location guidance and practical help getting your UK operation up and running. Once you are established, UKTI will remain available to your operation, helping you grow and access export markets from your UK base.

We can introduce you to the right person at UKTI or you can contact them direct via their website: https://www.gov.uk/government/organisations/uk-trade-investment

Bournemouth Airport

Bournemouth Airport provides the region with important transport links and currently sees around 700,000 passengers a year passing through its terminal buildings. It offers flights to a total of 35 destinations in mainland Europe, Turkey and the Canary Islands, plus transatlantic flights serving the Caribbean and New York.

Four years ago, the airport underwent a £45 million redevelopment programme which provided new departure and arrival terminals, plus extensive improvements to the airport’s infrastructure.
This has created a large step change in the quality of the passenger experience, without losing sight of the reason why people like to fly from regional airports - the promise of ease, convenience, speed and friendly service.

The airport is now capable of handling 3 million passengers a year and there are a number of market opportunities that the airport is keen to develop. For example, routes that meet the requirements of the local business community, routes that encourage more tourism into the region, and regular flights to a major European hub which will provide onward connections to the rest of the world. This potential will, in turn, contribute to the future prosperity of the wider Dorset economy.

The airport is part of the Manchester Airports Group (MAG) which also owns Manchester, London Stansted and East Midlands airports. MAG serves nearly 42 million passengers a year. In total the Group's airports and property business contribute more than £3bn to the UK economy and support thousands of jobs.

Business Improvement Districts in Bournemouth and East Dorset

Business Improvement Districts (BIDs), originated in Canada in the 1980s and quickly spread to the USA. In January 2004 the British Government introduced legislation to set up BIDs in Britain.

Currently there are three bids operating across the conurbation; Bournemouth Town Centre BID, The Bournemouth Coastal BID, and Wimborne BID. The Ferndown and Uddens BID is currently being developed.

Bournemouth Town Centre's BID divides its activities into three main areas: Marketing, Safety, Security and Access. Prior to the BID there was no co-ordinated marketing of Bournemouth Town Centre, while competitor towns and shopping centres spend heavily in this area, the BID has put in place a professional marketing campaign focusing on the most important time of year for most retail businesses – Christmas.

The town centre marketing campaign is based around improving the offer that Bournemouth provides at Christmas. For 2012 this involved providing an ice skating rink in the gardens. For 2013 and beyond the plan is to go much further, introducing a major festival to Bournemouth over the festive period – the Bournemouth Gardens of Light.

Outside of the Christmas period the BID is also active in smaller products designed to promote the town centre. These have included working with the Arts University to open a pop up Art Gallery, working with the Daily Echo to distribute £25 Town Centre Vouchers, which lucky readers are able to spend in a wide range of Bournemouth businesses, and an ongoing social media campaign, helping to promote Bournemouth town centre online.

For further information please look at www.towncentrebid.co.uk or e-mail info@towncentre.co.uk.

The Coastal BID runs from Westbourne to Hengistbury Head and includes some 760 businesses with a total rateable value of around £31.5 million. During the consultation period, businesses decided which projects they wished to undertake to help improve their area and their profitability.

The Coastal BID's objectives are to:

- Increase the number of people visiting Bournemouth and persuade them to stay longer
- Encourage visitors and local people to explore more of our unique coastal strip
- Provide people with reasons to spend more in local BID shops, pubs, restaurants and cafés
- Improve everyone's experience and encourage repeat visits
- Help make businesses more profitable by negotiating discounts with key suppliers.

For further information please look at www.coastalbid.co.uk; or email: alun@coastalbid.co.uk or tel: (01202) 291200.
Wimborne Business Improvement District

Having nearly completed its third year, Wimborne BID can reflect upon a year in which it has successfully achieved its aim of promoting the town and maintaining footfall to its shops and businesses. With a mix of innovative advertising and eye-catching events, the BID has captured the attention of both residents and visitors to Dorset, displaying the many facets of this heritage town, which make it unique in the area.

The Wimborne BID has continued to focus on four areas:

- **Events and Festivals** – Wimborne BID has provided strong support to regular festivals in the town and has sponsored some very memorable events, such as the Spitfire in the Square on Remembrance Day.
- **Infrastructure improvements** – new Christmas lighting dazzled the town this winter and illuminated parts of the town hitherto ignored. Signage improvements continue and the shop/pub watch scheme retain good support. Key members of the Wimborne BID gave up much of their time to resource Wimborne Radio, which is now live.
- **Marketing and Promotion** – the Love Wimborne Campaign, launched by Wimborne BID, was well received and culminated in record numbers in the square when the Christmas Lights were switched on. A number of clever promotions in October, like Wimborne 10, helped to keep local business in the public eye.
- **Business Support** – the Wimborne Information Network (WIN) continues its good work of providing information and advice to levy payers through their monthly networking circuits.

For more information please go to www.wimborne.info or e-mail: kellywebbbid@wimborne.info

---

Ferndown and Uddens Business Improvement District

BUSINESS leaders on the Ferndown and Uddens Industrial Estates are working towards improving trading conditions for the future. Following consultations on the concept of establishing a Business Improvement District (BID), seven owners and managers from companies based on the estates are spearheading the innovation. If approved it will be the first such industrial BID in the south west of England.

The focus of the BID is to deliver improved performance and profitability for businesses within the BID area. The BID provides a great opportunity for Ferndown and Uddens to establish its position as a leading business park and is home to a diverse range of businesses. It provides an opportunity to create an environment which reflects the high standards of the businesses that operate across the estate and to enhance their operating effectiveness and profitability.

A BID can implement a range of projects focusing on:

- Increasing business security and preventing crime across the estate.
- Enhancing the image of the estate including signage improvement.
- Providing a range of support functions to benefit all businesses, their owners and the employees plus the property owners.

The Ferndown and Uddens BID was approved in July 2014.

More information please go to www.ferndownanduddens.co.uk

Bournemouth Community Finance Launched

Bournemouth Borough Council is investing £15m into a new initiative, Bournemouth Community Finance. This new venture is offering business loans to fledgling, micro and small businesses in the Borough as well as mortgages of up to 95% loan to value, (primarily for first time buyers) to Bournemouth residents. Further information can be found at www.bournemouth.gov.uk/communityfinance.
The Dorset Business Growth Hub

A new one-stop shop helping businesses access support as well as advice on growth will be launched this year by the Dorset Local Enterprise Partnership (LEP).

The Dorset Growth Hub will be delivered through the Dorset Chamber of Commerce and managed by WSX Enterprise Ltd., a not-for-profit business support organisation, partnering with a range of business support providers both public and private.

- Business owners in Dorset access to information and advice via telephone, online and face to face
- A web portal that offers self-help solutions for businesses including:
  - Access to finance
  - Marketing and social media
  - Trading overseas/international trade
  - Training and workshops for business
  - HR and recruitment
  - Manufacturing
  - Environmental issues for business
  - Innovation and research and development

- 'Business Navigators’ to mentor businesses on a one-to-one basis, offering advice and bringing in other specialists services as appropriate
- Support for businesses wanting to access finance – either in terms of raising finance through bank finance or equity investment
- Vouchers to support the costs of innovation activity for businesses. This could be in areas such as design, proof of concept and commercialisation of developments
- Similar vouchers towards the costs of internationalisation for a business. This could include trading internationally for the first time or developing new products or services for an overseas market

If you would like further information about the Growth Hub please look at www.dorsetgrowthhub.co.uk or contact the Hub direct on 08454 586 480.

Bournemouth Chamber of Trade and Commerce

Prime Consultative Business Group

The Chamber represents business in Bournemouth through its position as the prime consultative business group with Bournemouth Borough Council. This enviable position means daily communication with Council departments on issues that are affecting business in the Borough and consultation on decisions that will impact on businesses in the Borough.

The Chamber was formed in 1916 and a list of all Chamber Presidents can be viewed in Bournemouth Town Hall. Until the late 1980’s representation within the Chamber was by trade, however in recent years this had moved more to representation by areas of the town. Of late, various “Specialist networks” have formed within the Chamber such as the Green Knowledge Network, Arts in Business, Recruitment and Health & Well Being.

Working in partnership The Chamber continues to work on the development of a strong business community in Bournemouth. This vital work ensures that business is at the heart of decision making in the Borough and that members’ concerns and ideas can be represented at a level where they can be heard.

Business support

Through partnership work with many local support groups members can expect the best in advice for their business. The advice available includes marketing, finance and much more. Chamber-sponsored training events range from marketing your website through to understanding employment law. All of our events are free and based in the local area.

Communication

Chamber members receive a free bi-monthly business magazine with the latest in business news for Bournemouth. This monthly publication has a circulation of 5,000 and is distributed to business and key pickup points throughout the town. Members enjoy the opportunity for editorial (subject to available space) and a reduced rate on advertising. The Chamber website gives members access to the latest chamber and member news and events. Through our online e-shots and articles members can submit press releases, business news and any events they may be holding. This service provides members with an excellent marketing tool for their business and is provided as part of their membership.

Events

Chamber Events range from our ever popular BH Banter through to the informal Beales Breakfast and the new quarterly BH On The Go; all provide a relaxed environment for socialising and discovering new customers and contacts. For prospective members who are
contemplating joining the Chamber, they will be able to attend two Networking events at BH Banter, Beales Breakfast or BH on The Go, free of charge, in order that they can see what the Chamber has to offer, without making a commitment. After this they will need to join the Chamber to benefit fully from our regular activities and membership.

Poole Chamber of Trade & Commerce

The Poole Chamber of Trade & Commerce is committed to providing local businesses with practical and relevant support. The Chamber provides a platform for businesses to engage, providing the opportunity for local businesses to network, and giving local businesses a strong voice in our community. We strive to provide dedicated support to businesses and individuals who want to improve, and hope to play an important role in encouraging and shaping the future economic prosperity of our local community.

How can Poole Chamber of Trade & Commerce help me?

If you are a business based or trading in Poole, the Poole Chamber of Commerce can help you gain exposure for your products, get advice on a whole range of topics and offer you opportunities to network and mix with like-minded business individuals. Benefits for Members include:

- Online Directory of members – promote your business to other Chamber members and use the Directory to find the products and services you need to run your business
- A go-between with Poole Council to help you access services – minimise the traditional bureaucracy and use the Chamber’s direct links to make things happen fast for your business
- Promotional opportunities with the local media to raise your profile – promote your business with press releases, promotional offers etc and use the Chamber’s links with local media organisations to guarantee exposure
- Networking opportunities via a mix of themed and non-themed events (including guest speakers) – use the opportunity to mix with like-minded local businesses and develop contacts and relationships that have a direct impact on your business

In addition, depending upon the size of your business, the Chamber can offer specific benefits such as:

**Start-Ups**

- Source of unbiased business information
- Advertising contacts at local media organisations
- Business advice from leading support organisations to get your business on its feet

**Small Businesses**

- Events at own premises to raise your profile
- Regular flow of business advice
- Business connections with key providers enabling you to increase your sales and profits

**Large Employees**

- Access to services including the Police, Council departments
- Access to employment and education agencies and services, helping you with recruitment
- Events at our premises to help raise your profile

To find out more or to join the Chamber please check us out at www.poolechamber.org.uk or tel: (01202) 672722 or e-mail: info@poolechamber.org.uk

**Federation of Small Businesses**

The Federation of Small Businesses (FSB) is the UK’s leading business organisation, and is the largest member-led business organisation in the country with around 200,000 members nationwide. Each member has their own small business and employ between 1 and 200 employees, all working to support their local economies. The FSB is primarily a lobbying organisation and exists to protect and promote the interest of the small business and the self-employed, through lobbying every level of government.

The Wessex Region of the FSB, covering Hampshire, the Isle of Wight and Dorset, has around 10,000 members, and works with local members to further FSB influence at a local and regional level. The FSB also provides a number of Member Services which offer a wide range of high quality, good value business services to members of the FSB, representing a positive enhancement to the benefit of membership of the Leading Business Organisation in the UK.

The FSB in Dorset, with around 4,000 members, works closely with local councils, to ensure small businesses are effectively represented. It aims to work with councils through its Small Business Engagement Accord, which encourages local government commitment to engage with businesses. The FSB also works with councils to identify and acknowledge the best small business friendly initiatives undertaken, in supporting the small business community.

Working with its members, the FSB also encourages support for local trade through its Keep Trade Local campaign. In addition, elected committee members represent the FSB in local business forums, and will organise various networking and business events for the benefit of the local micro and small business community.

If you would like to contact the FSB please telephone (01425) 280080 or e-mail wessex@fsb.org.uk or look at their website – www.fsb.org.uk
Environment

Carbon Management Centre (CMC)

The Carbon Management Centre (CMC) in Bournemouth is a partnership between Bournemouth Borough Council and Mouchel designed to establish Bournemouth as a Centre of Excellence for Carbon Management by reducing carbon emissions, reducing energy costs and generating revenues from green initiatives. The energy management service has already identified and delivered energy savings in the region of £200,000 and 1,000 tonnes of CO2 every year to Bournemouth Borough Council. In addition, the CMC generates inward investment and creates jobs in the local “Green Economy”.

A key project for the CMC has been its solar photovoltaic programme, known as the Bournemouth Solar Partnership which has been key to the carbon reduction strategy. To date, Solar PV has been installed in over 850 houses plus three large systems on corporate buildings, making a total installed capacity of over 1700 kWp. This is estimated to generate an impressive 1,600,000 kWh per annum and saves around 870 tonnes of carbon dioxide – and the FIT income is reinvested in the Council Housing Revenue Fund and other Council service priorities.

Savings have also been achieved via recent projects across the portfolio of council offices, leisure centres, depots, libraries and schools through a variety of measures including:
- Lighting upgrades including LEDs in Council buildings – where we have retrofitted existing fittings with new lamps using less power and delivering the same or better lighting characteristics;
- Installing lighting controls such as electronic ballasts, passive infrared and daylight level detectors, additional banks of switches all give greater control so that lights are switched on only when lighting is required.
- Insulation upgrades to both buildings and heating/cooling equipment, which saves energy by preventing leaks and solar gain – creating a comfortable working environment
- Solar PV systems have been installed on council houses, offices, schools and libraries.
- Installing a large scale biomass boiler using the client’s waste wood supplies.
- Behaviour change initiatives throughout the Council, from the highest level for all staff and partners to actively minimise waste and monitor the reduction.

The Local Council Carbon View: Green progress through economic recession

The Borough of Poole is signed up to the Covenant of Mayors which sets a target to achieve the European Union’s 20% CO2 borough-wide carbon reduction by 2020. In this time of economic slow-down, the Borough of Poole Council is committed to working with business and the local community to reduce the borough’s emissions and to improve the local economy.

Poole has been a signatory of the Covenant of Mayors since 24 April 2012 and is currently undergoing some exciting developments, whereby local businesses have a free opportunity to be part of the Green Positive Environmental Actions (PEA) Scheme. The scheme provides companies with a simple review of their business from an energy cost perspective, and then offers suggestions to help businesses save money on their energy usage. The scheme is graded so companies can work through to achieving the top status.

There are a vast number of benefits businesses can gain from the Green PEA scheme, including reduced utility and telecoms costs, free energy cost analysis and a recognised certification. Energy reduction helps businesses save money and reduce their carbon emissions; which in turn, benefit the environment. In addition to this, companies receive their certification at an awards ceremony which offers fantastic public relation and community opportunities. To date, there are 10 businesses which are signed up, where two businesses have already implemented some recommendations advancing their status within the scheme.

The scheme coincides with future plans that large businesses with over 250 employees could be legally obliged to have an energy audit under new plans proposed by the Department of Energy and Climate Change.

The government believes that once energy audit legislation is in place, firms could save up to £1.9 billion on energy bills. Using the governmental recommendation of investing £15,000 a year in energy efficient measures, an assessment could lead to bill savings of £56,400 per year. By creating the Green PEA scheme, the Borough of Poole is pushing Poole-based businesses one step ahead of the rest.
Skills

**DORSET EMPLOYMENT & SKILLS BOARD**

*Driving Skills for Dorset’s Prosperity*

The structure of Employment & Skills consists of the Board itself and three sub-groups established to take forward four priority areas identified as critical for the economic development of Dorset by the ESB and the DLEP.

The three sub-groups and their purpose:
- Young People Forum to raise the aspirations, employability and entrepreneurial abilities of Dorset’s young people.
- Skills Forum to increase the skills levels of the current and future workforce.
- Welfare to Work to support the welfare to work initiatives that will address worklessness, welfare and poverty across Dorset.

The four priority areas are:
- Up-skilling Dorset’s current and future workforce to meet the needs of employers and contribute to economic growth.
- Raising the aspirations, employability and entrepreneurial capability of Dorset’s young people.
- Supporting Welfare to Work Initiatives that aim to address unemployment, poverty and families with complex issues to reduce the number of economically inactive people.
- Creating an environment that supports successful enterprise start ups.

Established in July 2010, the Dorset Employment & Skills Board consists of both private and public partnership with membership drawn from the business communities across Dorset.

This membership includes representatives from Further Education, Higher Education and a number of key public sector organisations. The Board is aligned to the Dorset Local Enterprise Partnership and will provide the strategic oversight of the Skills Agenda. The Board is committed to working collaboratively to raise employment, skills levels, health and well-being, and to enable an increase in the economic prosperity in Dorset.

---

**Apprenticeships**

**A New Approach to Apprenticeships**

Apprenticeships are thriving and continue to rise in popularity. The driving force behind the continued growth of Apprenticeships is the return on investment that employers are seeing by recruiting apprentices. Businesses recruit a pipeline of young talent into their organisations, as well as developing existing staff into higher technical, professional or managerial roles.

A recent study by the British Chamber of Commerce showed that businesses that offer Apprenticeships, view them as beneficial to their long-term development by enabling the organisation to grow their skills base from within. Additionally, more than nine out of ten employers who take on an apprentice report a boost in productivity, improved products of services, improved staff morale and better staff retention.

Apprenticeships are not just available at Intermediate and Advanced level, but at the other end of the spectrum.

Higher Apprenticeships were introduced in 2009 to provide up to degree equivalent qualifications for apprentices and enable employers, colleges and universities to attract a high calibre of A-level students who are keen to explore alternative paths into the job market.

An Apprenticeship, available in more than 170 industries and over 1,500 job roles, is a job with a sector specific skills development programme designed by employers. This allows the apprentice to gain accredited technical knowledge and real practical experience, along with functional and personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, off the job training and the opportunity to practice and embed new skills in the work context. Government contributes funding to Apprenticeship training and qualifications which offer organisations a cost effective and structured framework on which to build and sustain a skill base for the future growth and development of the business. Eligible employers can also benefit from an Apprenticeship Grant for Employers (AGE) to help with taking on an apprentice (age 16-24). This grant of £1,500 each for up to 10 apprentices, is confirmed until at least December 2014.
The National Apprenticeship Service also launched Traineeships in 2013, an initiative to prepare young people for their future careers by helping them to become ‘work ready’. Traineeships provide the essential work preparation training, maths, English and work experience needed to get an Apprenticeship or other job.

There has never been a better time to employ an trainee or apprentice. For further information contact the National Apprenticeship Service on 08000 150 600 or visit www.apprenticeships.org.uk

**Superior**

“Apprentices Mean Business” at Superior

Superior is an internationally recognised manufacturer of precision elastomeric O ring seals and special mouldings. This family-owned business has offices and manufacturing facilities in Ferndown, Dorset.

A major factor for the business is sustainability. Our customer base includes some of the world’s leading companies and to meet their challenging standards, we decided that we needed to train for the future by “investing in our own timber”.

In recognition of this, the Superior Apprenticeship Scheme was launched in 2009, with a dedicated Academy building being officially opened in October 2012 by HRH the Duke of Kent. The Academy is specifically designed for the in-house training of apprentices and staff. In January 2013 the Apprenticeship training programme received external accreditation from the Institution of Mechanical Engineers.

The Academy seeks to recruit an intake of five apprentices per year studying towards a variety of qualifications across various skill bases. The September 2013 intake brings the total number of apprentices to 19. They are working towards qualifications ranging from level 2 Foundation Apprenticeships to level 4 Higher Apprenticeships and onward to higher education programmes such as Higher National Certificate (HNC) and degree level studies.

As part of our scheme we have established close working relationships with local schools and colleges, so we can engage with young people and their teachers at an early stage. We have also established very close links with STEM (Science Technology Engineering and Maths) and we currently deliver workshops in partnership with them at local careers events and schools. Topics we have been involved in include “Chemistry in Manufacturing” and “Women in Engineering” which were both delivered by our current apprentices and were very well received.

By promoting careers through apprenticeships across all skill bases, we aim to provide an exciting and rewarding career for our apprentices at Superior and also to spread the word about the benefit of apprenticeships to other companies.

The Academy has established very close working links with the National Apprenticeship Service (NAS) and in partnership with them, we have established aims to create a platform to increase awareness in apprenticeships and provide school students with a point of reference where they can readily obtain information on apprenticeships from apprentices actually working in industry.

To achieve these aims, we have established a network of young apprentices who can demonstrate to schools and colleges just what their apprenticeship has meant to them. The apprentices represent all aspects of apprenticeship training.

The network is called “Apprentices Mean Business” and is dedicated to the promotion of apprenticeships as an outstanding career option in Dorset. The purpose is to promote apprenticeships to businesses and young people by offering real life experiences and information from existing apprentices. Ben Clarke (Quality Manager at Superior) heads up the network and as an ex-apprentice, his experiences have laid the foundations for building a successful career in Dorset. If the network can help you or if you are interested in becoming an apprentice ambassador, then please contact Ben Clarke through the website at www.apprenticesmeanbusiness.com
Young Enterprise is the UK's leading enterprise and employability education charity, delivering programmes to over 1,000 young people in Dorset alone each year. Programmes seek to address the need to ensure young people are prepared for work. A recent CBI education and skills survey found 78% of employers rate attitude to work as a key decision factor when employing, along with aptitude and other core employability skills. Young Enterprise programmes are essential in delivering these skills. Over 540 young people from 18 schools across Poole, Bournemouth and Dorset this year took part in the Young Enterprise Employability, Empowerment and Enterprise programme with a further 250 students taking part in the Company programme, running their own real business for a year. Further enterprise and employability short programmes are also offered.

Business volunteers, teachers and students have said the local Employability, Empowerment and Enterprise programme is essential. Schools can assist young people in accessing knowledge and gaining qualifications but this project develops the skills and attributes so often lacking in new employees. Throughout the scheme young people were advised by business volunteers from the local community. By taking part, pupils learnt the importance of key transferable skills such as teamwork and decision making, developed their confidence and communication with adults, and understood the need for thought and preparation.

The programme began back in 2009 and was initially created in support of Poole Borough Council’s passion to prepare local young people for work. Gwen Brennan-Barrass, Economic Development Officer from Poole who started the programme with Young Enterprise says, “Seeing the young people involved responding to the advisor’s interaction, helping to develop their confidence and building aspirations over the eight sessions confirmed the need to ensure that this type of mentoring programme was rolled out in every school across Dorset, Bournemouth and Poole.”

Please see www.young-enterprise.org.uk for more details. If you, or your business feel you can support in any way, either through volunteering or sponsorship please do contact hannah.cook@y-e.org.uk.

Grow Your Business with the Bournemouth & Poole College

Growing the skills in your business and developing your staff is the best way to sustainable and impactful growth for the business.

The Bournemouth & Poole College works with around 2,000 businesses at any time across Dorset and surrounding areas, supporting them with the finest range of vocational training and skills development available. From apprenticeships to specific focused courses, the College will work with you to establish your business needs. If there is not a suitable off-the-shelf product to meet your needs we will work with you to produce a tailored solution.

Some of the ways the College can help are:
- Apprenticeships
- Higher Apprenticeships
- Leadership and Management training
- Technical courses such as within Engineering
- Business skills
- Free recruitment

The College is also a progressive training environment, reflecting the changing needs of business. Exciting recent developments include its purpose-built STEM (Science, Technology, Engineering and Maths) centre, designed to support the next generation of training needs in a cutting edge facility, together with in excess of £12m being invested in new buildings and regeneration at our Poole Site which will include an Applied Science & Digital Technology block due to open in September 2015.

The College already offers renewable technologies courses including Photovoltaic Installation, Solar Heating, Heat Pumps, Water Harvesting and Wind Power, helping ensure that Dorset businesses are fully equipped to take advantage of changes in construction and housing and support sustainability in the region. An innovative approach to maths education delivered at the centre includes contextualised learning that is supported by real and relevant industrial and business applications.

The College has also launched a dedicated Financial Services Centre at its Bournemouth campus, to support the needs of one of the area’s most crucial sectors. This centre will focus on developing
relevant skills for working across the variety of Financial Services career paths, through bespoke apprenticeship training and full or part-time programmes of study either at the College or in the workplace.

New apprenticeship and higher apprenticeship programmes are added to the College’s portfolio regularly; examples include the brand new apprenticeship programme to support the digital and creative industry, another of the area’s most vibrant and fastest growing sectors. Similarly the College offer a higher apprenticeship in Innovation and Growth, a unique cross-sector apprenticeship for ambitious, growing businesses developed in partnership with the Peter Jones Ignite Academy.

The College’s dedicated Business Enterprise team, which works with local business to support them using the College’s services across a range of options, crucially offers a single point of contact and a highly responsive account management service.

Matthew Butcher, Sales and Customer Account Manager at the College says “There is a huge range of ways that we can support local businesses and I would urge any business thinking of training or apprenticeships of any level to contact us. And if you are concerned that the process will be complicated and difficult, my team will make things as simple as possible and ensure you get the right service for your business. One size doesn’t fit all and we recognise that we need to offer a service which is as responsive and flexible as your business needs it to be.”

For more information, please contact the College on 01202 205500, or email be@thecollege.co.uk

---

Could a Business Mentor help you? Dormen Mentors have a wealth of experience to help local businesses grow and develop.

Dormen provides one-to-one mentoring for small businesses in Bournemouth, Dorset and Poole. It started in 2005 and since then has supported almost 1,000 businesses ranging from one-man-bands to medium sized companies.

Currently Dormen has around 90 volunteer mentors with a wide range of backgrounds. Most have set up and run successful businesses themselves or have held senior roles in commerce, industry or the professions. They share a passion for business and give their time to help other businesses in Dorset.

Dormen clients are equally diverse. Most have fewer than 10 employees and include well-established businesses who want to grow or diversify as well as fledgling businesses in their first year of trading. They come from all sectors of the economy and are based right across the county from the urban heart of the conurbation to the remotest part of rural Dorset.

Experienced programme managers match businesses with appropriate mentors. Mentors and client businesses arrange their own meetings and the mentor’s main task is often simply to listen, act as a sounding board and provide an impartial and objective viewpoint. Having regular meetings can also help a business stand back from day to day pressures to tackle issues, review plans and take a longer term view.

All Dormen mentors are trained in business mentoring and are kept up to date with recent developments in business knowledge and skills.

Want to find out more or apply?

If so, please visit www.dormen.org.uk for videos or view case studies below featuring Dormen clients and their mentors talking about their experiences of mentoring.

Alternatively please contact the programme managers on 01202 607530 or email: office@dormen.org.uk.

---

Autovan Services Limited

Autovan Services Ltd has been based at Canford Bottom, Wimborne for over 20 years supplying a quality repairs and refurbishment service for caravans and motorhomes and other leisure vehicles.

They have designed many bespoke mobile units for the Dorset Police, Born Free Foundation and many other companies who have had a specific requirement that no other company could supply.
Doubling the workshop area five years ago has allowed the company the facilities to design and manufacture many market leading motorhome conversions on Volkswagen, Mazda Bongo and Renault Traffic base vehicles. By working with local sales partners they have produced over 300 vehicles to all types of specifications.

Michael Herrington, MD of Autovan Services Limited, has worked with a Dormen mentor for a number of years. “The ongoing support a business mentor can provide has helped us enormously by continuing to encourage the business to review its operations and be self critical. The gentle guidance of an experienced and unbiased mentor is invaluable.”

Urban Beach, Urban Reef, Urban Renaissance and Urban Farm

The first ‘Urban’ brand business was started in 2005 when Mark Cribb bought a run down B & B in Boscombe, Bournemouth. He spent four years transforming it into a quality boutique hotel, bar and bistro with an emphasis on ethical and seasonal food and drink and enthusiastic customer service. Four years later, Mark extended the brand opening Urban Reef, a seafood restaurant, bar, café and deli by Boscombe pier. Urban Farm in the New Forest followed supplying local, seasonal produce to Urban’s kitchens. In spring 2013 a further café was opened in the Russell-Cotes gallery in Bournemouth town centre followed shortly after by Jenkins & Sons, a restaurant in Penn Hill, Poole.

During this expansion, Mark contacted Dormen and was matched with a business mentor.

“We’ve grown at a pace that meant as a director I felt a little bit out of control and wanted an independent reality check. In a mentor I got a voice of reason to bounce ideas off about where the business was and where it was heading. Having the opportunity to be very honest and talk through all aspects of the business in confidence has been a huge help.” Mark Cribb

Idelica

In under three years, director Emma Lopez has turned her home-grown business Idelica from a tiny Spanish fine foods retailer into a busy and diverse Spanish speciality food business. Idelica now imports and sells Paella ingredients and equipment to the public online and at food festivals, supplies local delicatessens, provides Paella and tapas catering for festivals and private parties, weddings and events. Idelica is now fully equipped to ‘pop up’ and serve up an authentic Spanish ‘feast & fiesta’ virtually anywhere in Dorset and Hampshire. Throughout this period of growth, Emma has had the regular support of her Dormen Mentor who has helped her focus in times of uncertainty and given her more confidence when important decisions needed to be made.

Emma takes great pride in her ability to give a personalised and responsive service to her clients. “Anyone considering Paella catering wants to give their guests more than just a delicious, freshly-cooked meal. They want to get them excited by the sights and aromas of the paella being cooked before them and to savour the moment when it’s served up to them. My job is to make sure all this happens the way the client wants it so can they can relax and enjoy the event too.”

SOS

Maureen Bursey set up her shop, SOS Swim, in Broadstone in 1999 alongside her swim school. Shortly after she launched an online shop and a mobile shop which she took to competitive events. In 2010 Amanda joined her mother to help grow the business. This was when they sought the help of Dormen. They realised that introducing new ideas at the same time as trying to streamline a business with four different revenue strands was going to be a challenge.

Amanda has since focused on marketing, most notably running a successful social media campaign during the 2012 Olympics to promote the SWANS range of swimming goggles for which SOS Swim is the sole UK distributor. The business is now buoyant, having recorded an upturn in revenue of nearly 100 per cent in the last 3 years. “Since working with our mentor Ross, we look at things in a different way evaluating ideas and setting goals objectively. A lot of this is plain common sense but it really helped to have someone looking in from outside the business to help us see it.”
Transport & Connectivity

Three Towns Travel

In 2011 the three authorities of Poole, Bournemouth and Dorset submitted a joint bid to the Department for Transport for funding from the Local Sustainable Transport Fund (LSTF). The scheme, named the ‘Three Towns Corridor’, was designed to promote sustainable travel along this extremely busy route through the South East Dorset Conurbation. Bournemouth were the lead authority, with the relative split being Bournemouth (50%), Poole (30%), and Dorset (20%). The submission was supported by a complex technical transport model analysis, seeking to meet the emerging travel demands across the conurbation for the next 15 years. The bid ultimately was successful and an award of £12.122m was made by the DfT in June 2012. Supporting economic development and reducing carbon use were the main strategic aims of the programme.

The programme within Poole consists of a number of highway improvement schemes along the A35 corridor, together with enhanced traffic management arrangements, bus stop improvements, traffic signal upgrades, electronic intelligent transport systems, and a specific agreement with bus operators, all designed to reduce congestion and to encourage the public to use these alternative modes of transport.

The considerable amount of work involved in delivering all of these improvement schemes within the three year programme (due for completion end of March 2015) was further compounded by the adoption of the nationally recognised Quality Audit process, involving extensive public engagement and scheme consultation. In the event this process has proved itself extremely beneficial, giving those involved the assurance that the wide range of views from the public had been properly considered in the development of schemes. Furthermore, in line with modern urban design principles, more emphasis has been put on ‘place shaping’, seeing roads as an opportunity to create a pleasant environment for people to enjoy and not just as a means for through traffic.

Improvement schemes have already been completed at Shah of Persia, Poole Railway Station / Vanguard Road, Sea View and North Road; works are currently underway at Ashley Road and Poole Road; schemes are being developed for Civic Centre, Ashley Cross, and general cycling / walking improvements in the Town Centre. It is envisaged that this programme will be completed ahead of schedule during 2014.

In addition to this, the existing traffic signals have been upgraded, CCTV, electronic variable message signs, traffic journey time measuring equipment, and an associated traffic control room at the civic centre have been provided so that much more effective traffic management can now be undertaken along this route.

All of the improvements within Poole have been developed in the context of the very much larger conurbation-wide LSTF programme, achieving benefits for the travelling public right across the conurbation from Poole in the west through Bournemouth and onward to Christchurch in the east. Furthermore the programme has been supplemented by an extensive co-ordinated publicity campaign, designed to provide an explanation as to the inevitable disruption which has occurred as a result of the works being undertaken, and also most importantly to advise the public that they might want to consider making longer term use of the enhanced sustainable travel opportunities available.

Meet Bournemouth – the official Conference Bureau for Bournemouth

Our Aim
We aim to introduce you to a range of high quality and unique venues that are ready to welcome your next event. With award winning gardens, seven miles of stunning coastline, accommodation to suit every budget and a vibrant nightlife with cosmopolitan cafés and bars, you are guaranteed that our beautiful and easily accessible town will delight and satisfy your delegates every need.

Our Services
As the official Conference Bureau for Bournemouth and the surrounding area, Meet Bournemouth promotes the best of what the region has to offer to the Meeting, Incentive, Conference and Event (MICE) market. Our free, full and impartial local knowledge, and event organising expertise, means the pressures of organising an event are greatly reduced when you work with us.

If you would like to take advantage of our range of services including Venue Finding, Site Visits, Social & Partner Programmes, Bid Preparation, Familiarisation Visits and Support Services please have a look at our website at www.meetbournemouth.co.uk or call us on 01202 456545 or contact us at e-mail: enquiries@meetbournemouth.co.uk

Carbon Trust
The Carbon Trust is an independent company set up in 2001 by the Government in response to the threat of climate change, to accelerate the move to a low carbon economy by working with organisations to reduce carbon emissions and develop commercial low carbon technologies.
They cut carbon emissions by giving business and the public sector expert advice, finance and certification to help them reduce their carbon footprint and to stimulate demand for low carbon products and services.

Edison’s Directory 2014-2016
Bournemouth University (BU) is home to experts who can make a difference to businesses in every sector of the economy. We are constantly collecting and analysing data that helps inform decision-making and forecasts future prospects.

BU is committed to helping the local economy grow and prosper and our economic oversight and understanding can help us work with you to keep your business at the cutting edge.

Small and medium sized enterprises (SMEs) are particularly welcome to contact us through our Centre for Entrepreneurship.

We’d love to talk. Visit our website to find out more:

Businesses, get active!

Download your free Business Finder CD at www.burrows.co.uk/bournemouth

Bournemouth Database is now online!

The online version enables you to search for business by name, type of business and location. Simply type what you are looking for and decide how you want to sort the results. The database is FREE to join for all local businesses, so why not register today at www.burrows.co.uk/bournemouth.

You can also keep your organisation’s details up to date; just find your entry and click the Update link. This will ensure potential customers have access to accurate information about your company.

Interactive Business Finder CD - FREE download!!

The Business Finder has powerful search features, allowing multiple fields of the database to be selected and integrated. The additional Bookmark Feature allows you to save the search results and refer back to them at any time – an invaluable marketing tool. These results can be further manipulated with the customisation of fields and the sorting of data.

Upgrading: Once you have installed your Business Finder, additional features can be upgraded for a one-off charge from £150 to £400 + VAT, dependent on the level of service you require.

Upgraded versions print address labels, compile and print reports, perform mail shots and export data.

Please call 020 8773 3060 for more information.

This data has been verified by Burrows Communications Ltd on behalf of Bournemouth Borough Council.
